Premium Plus Sliding Doors

Our Premium Plus Sliding Door system is a popular alternative to our Bi-Folding doors. Due to the 'in-line' sliding operation we can manufacture individual panels at much larger sizes - providing clear panoramic views whether your doors are open or closed. Installing a Green Circle Sliding Patio Door will make your room feel bigger, brighter and warmer.

Our Premium Plus Sliding Doors come with many benefits...

Slim Sight Lines:

Green Circle's Premium Plus Sliding Doors are manufactured from slimline, thermally efficient aluminium profile which is both strong and lightweight in construction.

Effortless Opening:

Aluminium's lightweight construction combined with polyamide double rollers enables extra large glass panels to slide effortlessly.

Increased Thermal Efficiency:

Our NEW Premium Plus Sliding system features an extended polyamide thermal break which further enhances thermal performance.

High Security Locking System:

Our sliding doors come fitted with our latest high security 5-Point hook-lock system, operated by lever handles.

Building Control:

Our range of aluminium sliding doors fully comply with Doc L of the Building Regulations.

We are very happy with the whole process from the first contact to the final fix. Everyone has been very helpful and made us feel valued as customers on a personal level.

Larry & Jenny Base, Tavistock
